Connecting Android Phone or Tablet

Connecting Your Device

Android phones can vary based on manufacturer and carrier. Below is a guide featuring screenshots from a Samsung phone on AT&T, but the guide should be helpful for other Android devices as well.

1. Go to the main menu. Choose “Settings” menu. Navigate to Connections

Troubleshooting your Device

If you experience issues connecting your device to the PAWS-Secure wireless network, follow the steps below.

Note: If the steps below do not work, it is possible your device has been blocked from the network. Please contact the Help Desk at 706-542-3106 or email us at sts@uga.edu and be ready to provide the wireless MAC address of the device.

Forget PAWS-Secure

Go to settings. Navigate to Connections/Network and Internet, and select WiFi
Select PAWS-Secure

Select Forget

**Network Settings Reset**

1. Go to settings
2. Navigate to General Management
3. Navigate to Reset
4. Select Reset Network Settings
5. Select Reset Settings
