EITS Computer Labs

EITS Computer Labs Overview

EITS Computer Labs are located throughout the University of Georgia campus. In addition to a variety of installed software packages and printing services, these labs provide access to central computing resources, the campus broadband data network, and internet connectivity. The Miller Learning Center provides information help and librarian reference services.

EITS Computer Lab Location and Hours

To view the location, hours of operation, and available software list for any EITS Computer Lab, see:
