How to find my device's MAC address

Step-by-step guide

**Nintendo**

1. From the Wii U Menu, select System Settings.
2. Using the Left Stick select the Internet icon and press the A Button.
3. Select View MAC Address and wait a moment for the MAC Address to be displayed.

**Sony**

1. From the main menu, select Settings.
2. Select System Settings.
3. Select System Information.
4. The MAC Address will then be displayed on the screen.

**Microsoft**

1. **Open the command prompt.** Right-click on the Start button and select Command Prompt from the menu.
2. **Type in `ipconfig /all` and press Enter.** This will display your network configuration.
3. **Find your adapter's physical address.** Scroll down to your network adapter and look for the values next to "Physical Address," which is your MAC address.

- Navigate to My Games and Apps
- Select Settings.
- Select Network.
- Select Advanced Settings.
- The MAC Addresses for the wired and wireless adapters should be displayed.

1. Navigate to My Xbox on the Xbox Dashboard.  
2. Select System Settings.  
4. Select Configure Network.  
5. Under Basic Settings check to make sure IP Settings is set to Automatic.  
6. Go to Additional Settings.  
7. Select Advanced Settings.  
8. The MAC Addresses for the wired and wireless adapters should be displayed.

Apple

1. From the Apple menu, select System Preferences....  
2. In System Preferences, from the View menu, select Network.  
3. In the left of the "Network" window that opens, click the name of your connection (e.g., Wi-Fi, Air Port, Ethernet, Built-in Ethernet).  
4. Click Advanced..., and in the sheet that appears, click the Hardware, Ethernet, or AirPort tab.  

The address is the string of letters and numbers next to "MAC Address:", "Ethernet ID:", or "AirPort ID:".

1. With your Apple TV remote, navigate to the Settings icon and select it.  
2. From the Settings menu, select General.  
3. Under General, select Network.  
4. Your MAC Address will be next to either Wi-Fi Address or Ethernet Address depending on whether you are connected to the internet via Wi-Fi or a Wired connection.

Streaming Devices

1. Open the Chromecast app on your computer. If you have set up your Chromecast recently, you’ll find a shortcut to the app on your desktop. Otherwise, Windows users should check the Start Menu and Mac users should check Applications.  
2. Click Settings, and the MAC Address will be at the bottom of the window.  

1. On the back on your Roku there are a pair of six 2-digit pairs separated by colons, e.g. 00:0D:0A:1H:3G:5C. One set is for the Ethernet connector and for the other for the wireless connector.  
2. Alternatively, from the Roku home screen, select settings> player info. The Addresses will be listed on-screen.  
   - Most MAC Addresses will be visible in the Settings Menu, either under the Network or About sections.  
   - Alternatively, check with the manufacturer for instructions on how to obtain the MAC Address for your specific model.
