How to Change my MyID password

This is for users who know their current MyID password, but want to change it.

Step-by-step guide

1. Go to: http://myid.uga.edu
2. Click on "Change your password" under "MyID Management" on the left.
3. Log in using your current MyID and Password.
4. Select "Change Password" in the left menu.
5. You will be prompted again for your old (current) password before filling out and confirming your new password.

Password changes can take up 15 minutes to take effect.
