

# Connecting Smart TVs

Smart TVs are unable to connect to the wireless networks on campus, but wired connections are available in every residence hall room. Below are the steps to get connected with a wired connection /Ethernet cable.

1. [Request a port activation](#). You will receive an email letting your know your port has been activated. Then you can proceed to the next step.
2. [Find the MAC address](#). You need this when you register the device on [drp.uga.edu](#).
3. [Register your Smart TV on drp.uga.edu](#).
4. Connect the television to the wall port using the Ethernet cord.

If you still have issues getting your TV online, please submit a [Housing Network Support ticket](#).
