

# Listserv

A listserv is an email list management system. LISTSERV is the name of the product offered by the company L-soft.

Anyone can be a subscriber to a list, including people not associated with the University of Georgia. UGA Students, faculty, staff and recognized student organizations may request a list on the LISTSERV system.

LISTSERV offers email lists that are announcement-only and discussion groups that may be moderated or unmoderated.

LISTSERV allows list owners to manage their lists, including adding or removing subscribers, via the UGA LISTSERV website [listserv.uga.edu](http://listserv.uga.edu) or by email.

LISTSERV offers the following:

- Moderated lists
- Ability for users to self-subscribe or unsubscribe to lists
- Ability to include non-University of Georgia subscribers
- Online archives of messages posted to lists, if selected
- Ability for list owners to manage their lists
- Ability to share your list publicly, if selected

## What are the complete features of LISTSERV?

L-soft outlines all of the [available functionality](#) of LISTSERV. The University is currently using version 16.0 of LISTSERV.
