Removing email account from iOS app

Please follow these steps on how to remove your UGAMail account from your iOS device.

1. Click on the Settings icon. This is the "gear" icon.
2. Scroll down until you find "Mail" and click on it. (you can also search for Mail in the search bar in the top of the screen)
3. Click on "Accounts"
4. The account should be listed as "Exchange"
5. Click on the "Exchange" (could also be "UGA" if you named it that) account and then "Delete Account"

You can then add the account back by following the How to Sync Your UGAMail Account to Your Phone (iOS) guide.

To remove the account from other devices or apps please see manufacturers guidelines.
